

Name : _____

Observing Curiously

Observe behaviours of humans, observe patterns in nature, observe deeply why somebody likes a product, and observe deeply. The curious observation is the first step to innovate. We help youngsters to acquire the skill of deep observation through well-designed activities and exercises.

Place of observation :

Time :

Duration :

Observing Curiously - 1

1) What seems new / surprising ?

(List / Draw / Map / Talk) at least eight points

2) Write at least eight activities

What (What are they doing?)	How (How are they do it?)	Why (Why are they doing it this way? Take a guess)
<p>Little girl is eating fruits.</p>	<p>She takes snacks without her mom's help.</p>	<p>Little girl may not like the fruit taste; she expresses her reaction.</p>

What (What are they doing?)	How (How are they do it?)	Why (Why are they doing it this way? Take a guess)

3) What seems beautiful / elegant?

(List / Draw / Map / Talk) at least eight points
